Job Summary

Vacancy : 3

Deadline : Feb 15, 2025

Published : Sep 13, 2025

Employment Status : Full Time

Experience : Any

Salary : \$20.00 - \$26.00/hour

Gender : Any

Career Level : Mid Level

Qualification : Welding Certification, Technical Training

Job Description

Perform MIG, TIG, and stick welding on metal components and structural assemblies according to fabrication specifications. Read and interpret technical blueprints, welding symbols, and work orders to ensure precise joint preparation and weld execution. Set up welding equipment, select appropriate filler metals and consumables, and configure machine settings for optimal weld quality across various positions and materials. Inspect completed welds using visual and dimensional checks, document results, and perform or report required rework to meet AWS/company standards and project specifications. Maintain welding equipment and consumables, perform routine preventive maintenance, and follow OSHA and site-specific safety protocols, including proper use of PPE and safe work practices.

Education & Experience

Welding certification and technical training required. Certified in MIG/TIG welding processes. Minimum 3 years welding experience. Blueprint reading skills essential.

Must Have

Certified in MIG/TIG welding, 3+ years experience, blueprint reading
